Our Ref: Case PC0805

RE: National phases of International Patent Application No. PCT/EP00/02516  
Having for title: **WATER RESISTANT CABLE**  
Inventors: Tony Brown and Nigel Shackleton  
In the name of: PIRELLI CAVI E SISTEMI SpA

Dear Mr. Healey,

With reference to our previous correspondence on the above case, I am enclosing herewith the documents for US and Canada which should be signed by Nigel Shackleton. As you are aware, he seems to be unwilling to sign any forms.

Our US attorneys advise that proofs should be furnished before the United States patent office showing that attempts have been made to contact the non-signing inventor and that the documents have been regularly transmitted to him (for Canada the problem should be easier to solve).

Therefore, as agreed with Claudio Ravizza, please take care of forwarding the documents to Nigel Shackleton to his last known address (I was informed that Mr. Shackleton refuses to confirm his current address which should be 19 Five Locks Close, Pontnewydd Gwent).

**Please, retain a copy of the postal receipt attesting delivery of the documents to him as evidence of our attempts to reach him and to obtain his signature.**

I am sending separately a copy of the documents to Mr. Tony Brown for his signature.

Please keep us informed on the case developments.

With many thanks for your kind cooperation.

Sincerely yours

  
Mariangela Sala
